

# FRONT-LIFT 25.01 – Integrated Model

- Front-Lift with 2,500 kg lifting capacity with 190 bar.
- Integrated most possible for tractor with respect to design & space requirement.
- Individual lift arms with 4 possible positions: a) free moving b) limited moving c) locked position d) transport position.
- Good for 4 and 6 cylinder tractors with approx. 70 HP to 130 HP.
- Can be adapted to Front-PTO.

**PRICES** Always with adapted side bracket plates: Look in "Tractor Makes/Model List"

## STANDARD EQUIPMENT

- Single acting hydr. with air filter on lowering side.
- Cat. 2, DS/ISO 8759/1/2, 825 mm between the lift arms' balls.
- Cleaned and painted with a two-component primer and finally painted in the tractor's colour - two-component.
- Adapted to the individual tractor model.
- Chassis bolts & 5,5 m hydr. hoses with couplings.
- Stop valve device on hydr. hose at tractor connection – the lift can then be locked.
- Quick-coupling for lift arms, cat. 2 with  $\varnothing 28$  mm balls.
- Top link  $\varnothing 25$  mm and pin with parking device for the lift arms' balls.
- Parking device for top link.
- **For several models:** direct hydr. connection. Look after \* in "Tractor Makes / Model List".

**EXTRA EQUIPMENT** (Description of extra equipment - look at page 2).

Designation	Weight kg	Item No.	Price €
Accessory kit from single to double acting front-linkages, mount.	4	66595-00	
Shock absorber kit incl. hoses and fittings, mounted	4	66585-00	
Spring suspension kit incl. hoses and fittings, mounted	16	66590-00	
Shift-Control Double, EI-shift between Front-Lift and one outlet	8	65100-10	
Shift-Control Triple, EI-shift between Front-Lift and two outlets	14	65100-12	
Double oil outlet on Front-Lift, with hoses from tractor outlet	9	65100-20	
Holder for relief springs <b>per set</b>	7	667005001
